

Patient Portal

Dear Patient,

As we continue in our efforts to provide you, our patient, with the highest quality of care, we are constantly looking for methods of working together with you to ensure that you are not only aware of but also involved in the maintenance and improvement of your health.

To that end, we are proud to announce that our practice now offers you the opportunity to use the power of the web to track all aspects of your health care through our office. The Patient Portal enables our patients to communicate with our practice easily, safely, and securely over the Internet.

Through the Patient Portal, you will be able to :

- Ask questions of doctors, nurses, and staff members
- Request prescription refills and referrals
- Request appointments
- Examine your current and past statements
- Review, print and share your health summary... all from the comfort of your home, whenever it is convenient for you!

By using the Patient Portal you no longer have to call the office, leave a message, and wait for a response to get the results of your lab work; those results will be available to you on the Portal. You no longer have to call with a question or concern; you can send a message to the office through the Portal and expect a prompt reply.

In order to get access to the Portal, you will need to provide us with an email address. We will then send you an email invitation with a link and a PIN number. Just click on that link, create a new account with your name and birthdate, enter the PIN provided and immediately get access to your health information!

Begin today to take an active role in managing your health care!

Yours truly,

Tasha Cieslak
Practice Administrator
Gastroenterology Clinic of Acadiana
